

The 3rd Workshop on Environment and Energy (WEE2006) Call for Papers

The 3rd Workshop on Environment and Energy (WEE2006)

Date: March 8&9, 2006

Place: Osaka University Nakanoshima Center

<http://www.camt.eng.osaka-u.ac.jp/wee3/>

Scope of interest: natural sciences, engineering, social sciences, and humanities

OUTLINE

The Organizing Committee of the 3rd Workshop on Environment and Energy (WEE2006) welcome you to participate in this interdisciplinary workshop and to submit abstracts on your latest research topics. Although the main theme of this workshop is on environment and energy, presentations in the contributed poster and oral sessions may cover various fields in natural sciences, engineering, social science, and humanities that may not be directly related to issues in environment and energy. The goal of holding these sessions is to encourage people (especially students and those in their early careers of research) to communicate with their peers in different fields and to share opportunities to discuss what they can do with their special knowledge to address various issues in environment and energy. Therefore we strongly encourage the presenter to prepare his/her presentation to be accessible to a wider audience. Please share this Call for Papers with your colleagues.

Please register and submit your abstracts through

<http://www.camt.eng.osaka-u.ac.jp/wee3/>

where full instructions for abstract submission are also available

For further information, please contact

Prof. Satoshi Hamaguchi,

Osaka University/Stanford Japan Center
